# WHY *you'll make more money operating the new Modernized Wurlitzer . . . .*

## *Its Beauty* ATTRACTS MORE PATRON ATTENTION

The Modernized Wurlitzer has a fresh new beauty all its own. Totally different in appearance from any other phonograph its brilliant eye appeal is a subtle but powerful invitation for location patrons to pay to hear it play.

## *Its Tone* ENCOURAGES CONTINUOUS PLAY

Once a patron plays this Wurlitzer, its marvelous tone will encourage further play. Constructed of wood as a wartime measure, the new Modernized Wurlitzer has greater baffle area. That's the secret of its sensational tone.

## *Its Mechanical Selectors* REQUIRE LITTLE OR NO SERVICE

To save service costs is to make money. You'll save them with Modernized Wurlitzers. Their remarkable record as service savers takes the pressure off Service Departments, helps hold down high operating costs of wartime operation. Rudolph Wurlitzer Company, North Tonawanda, New York.

Did you ever stop to think of what happens to the eye of a ship—its COMPASS—in the height of battle—in a turbulent sea — with shells bursting, bombs falling, and even battleships tossing about like corks?

America's Navy and Merchant Marine are now being equipped with new eyes!

ONE of the World's most Intricate Mechanisms—The Gyro Compass overcomes all the fluctuations caused by Battle and Storm Conditions. No matter what happens . . . The Gyro Compass Needle ALWAYS points North! . . . A great contribution to the safety and efficiency of American Ships. Buckley is proud both for itself and for the Coin Machines Industry of which it is a part, of its work in developing and manufacturing the generator gyro drive power plant for this remarkable Compass . . . and after the war this same Buckley Precision Craftsmanship will be working for YOU!

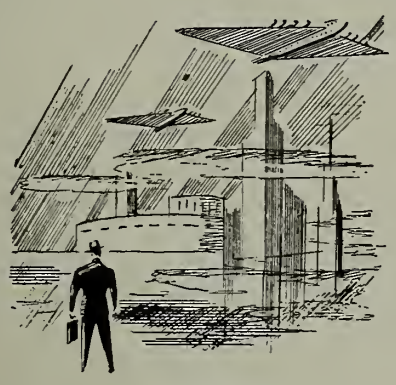
# PREPARE FOR POST-WAR

## FOREWORD

**The entire industry, now that the manufacturers' industry advisory committees are meeting with greater frequency with WPB, is stimulated by a growing fever for post-war preparedness. Yet it seems that many in the trade do not know just what to do, nor how to proceed, about planning for post-war.**



**It also seems that everytime one or two leaders advance a new idea, someone comes along to urge great caution. There is definitely no need for the kind of caution which hasn't any faith in the future development and grow th of this industry.**

**From the many thonsands of words which have been written about this coming post-war era, there is that feverish impulse in the average man to somehow get deeply into the swing of what everyone is now convinced will be one of America's greatest and most romantic growth periods.**

**There is no doubt that as the war rapi dly approaches its close, the public has become excited over the reports that many millions of the world's peoples are now more than ever dependent upon this nation for post-war sustenance and welfare.**

**Along with this general post-war nation al growth, this coin operated machines indnstry will grow, too. But, it will only grow because of the courage, daring and far-seeing vision of those few men who have faith, and the conviction in their belief, that this business has as yet to make its first real strides forward.**

**This industry, like any other in a period of great development, must naturally face rumors, uncertainty, complaints, aggravation and even in its own ranks, much suspicion as to its purpose and intent.**

**It will grow away from all this. It will go forward. It is the sort of business that is destined to expand and grow great.**

## LOCATION AGREEMENTS

**For some months now The Cash Box has been urging those men who saw this war thru to protect themselves in every possible fashion so that they will be the first to progress in, and benefit from, the post-war period. These are the men, now actively engaged in this industry, who have suffered all the heartaches of every kind of rationing, of location after location closing, of beer shortages, and of many other wartime headaches.**

**But these men valiantly continued onward. Today they form the solid base for this industry. And because of their tenacity and faith they have attracted great attention to this trade from many leading business men. These outsiders are amazed at the grand and unusually fine possibilities this business offers keen investors.**

**Therefore these are the men, the men who continued on when others quit, who should be given first preference when the new equipment arrives. These are the men who are urged by The Cash Box to go out on the streets of their villages, towns and cities and close as many locations to themselves as they possibly can handle to protect themselves for the post-war era.**

**The one best way in which locations can be closed to them is by legally binding location agreements. These can be arranged by personal lawyers or can be purchased in standard form. The best method to adopt is to be sure that the type of location agreement used covers every possible loophole, and that the location will therefore remain the location of the coinman making this agreement.**

**The best excuse, where excuses prove necessary, it is reported, is that such agreements are needed to prove to wholesalers how many locations actually belong to the coinman signing the agreement, so that he can get his share of the first new machines when production again gets under way. This excuse is reported to have proven effective with location owners who were hesitant or reluctant about signing up.**

## NEW COMMISSION BASIS

**With the signing of legal binding location agreements there should also be placed into effect a new commission basis between the location and the coinman. It is a well publicized fact that the average rise in materials and labor is, in most instances, better than 25%. The publicity given this fact allows the average coinman the opportunity to obtain additional percentage so as to be able to continue profitably in the post-war period.**

**The average coinman will need this extra percentage to cover the higher cost of equipment he will buy in the post-war era. He will need it to so much more speedily amortize the cost of the new equipment he will buy. He will most certainly need it to cover increased overhead. And he will especially need this additional percentage when the public hasn't the numerous dollars it now has to spend.**

**For many months The Cash Box has been urging the trade to go on a 70%-30% commission basis, at least with the average location. This additional 20%, as compared to the present 50%-50% basis, will at least partially cover the increased overhead now being endured by all coinmen. It will at least even up the profit ratio when the post-war era is in full blossom. It will give the average coinman a chance to get back his increased investment.**

**Many suggestions have come to The Cash Box in this regard. A few weeks ago one noted and successful coinman advised that he was immediately adopting a 1% cost charge basis with his locations. For every $100 worth of equipment he installed in any of his locations he would first take $1 from the cash box for himself and then split the remainder on a 50%-50% basis with the location owner. This is somewhat similar to arrangements which have been, and are now in use by many, who take "top" money prior to splitting the balance of the collection.**

**Whichever procedure seems best to fit the peculiarities of each territory should be used. But most important is the fact that a better commission basis is needed, especially for the post-war era.**

*Page 2—"The Coin Machines Merry-Go-'Round"*

## USED MACHINES HOLD LOCATIONS

Regardless of all stories and rumors the fact remains that the present type of used machines dealings will still continue on for sometime to come. Therefore it is to the advantage of the average coinman to make use of this sort of equipment to his best advantage. It can gain for him what he needs to assure himself the greatest possible success in the post-war period.

Naturally, few like to pay high prices for used equipment. Still, with the fact remaining that this is the only equipment that can be purchased at this time — the coinman must make it his business to realize that he isn't just purchasing another used machine — but instead, is actually insuring himself another location for post-war.

That is why The Cash Box urges the trade to realize that the coinman who has the world's finest coin operated machine — but who has no location for that machine — will find that the machine isn't worth a plugged nickel to him.

He must have locations. He should get as many of these now as he can possibly handle. He should buy whatever used equipment he needs now to cover such locations for himself. He can always assure the location owner that he will get him the first new machine off the production line. But, if he hasn't the location — of what value is the new machine to him?

## BUILD GOOD WILL

Some many months ago The Cash Box advised the trade that one of the greatest jobs it could do at this time was to build good will. There is a definite trend on the part of a great many to growl and grouch at location owners who ask for extra service, a few new records or a little more personal attention.

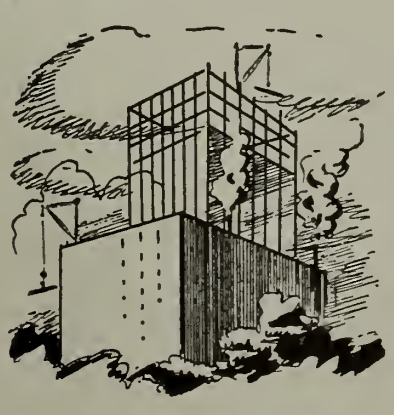
Smile, smile, smile — that's the answer. Spend time with the man. Don't grouch, don't growl, don't be curt. Call on him — explain carefully how you're trying to take care of his every need. Make it your business to get closer to that man and to completely and clearly and carefully explain your every trouble to him. Before long he'll be weeping on your shoulder, agreeing with you how tough things are for you.

This is one great job that should be done, and done now. A great many people (and possibly yourself, too) are storing away a lot of these poor business actions in the back of their minds. A lot of big time business and hotels are going to lose old, profitable trade. People, like yourself, who are storing up all these little indignities and injustices in the back of their minds are going to get even — after the war.

Don't let this happen to you. Make it your business to get everyone of your employees to be courteous, polite, attentive to every single one of your customers. And make these employees of yours — smile, smile, smile. Build the sort of good will now that will make your locations stick with you, and remember you for all your efforts, after the war is over.

## PREPARE FOR EXPANSION

Every coinman in the nation must be prepared to expand, and rapidly, too. Men are coming back from the armed services and among these are going to be mechanics, helpers, packers and others who worked for you before the war started. You want these men back again. You are going to need them, especially when the post-war rush gets under way.



Some of your men may now be in war plants. Everytime they rivet a bolt into a bomber they also dream of the day when they'll be back in your repair shop putting machines together again. They think of the time when they can again be "the boss" in this little mechanical world of their own. Make ready to take them back.

Get your quarters cleaned up if you feel these are the same quarters you'll want when the war is over. Get into larger quarters now if you believe that you'll need them. Lay them out the way that you have always wanted to. Here's a chance to use the experience you have gained in this direction. This is the time for expansion.

## PURCHASE ADDITIONAL ROUTES

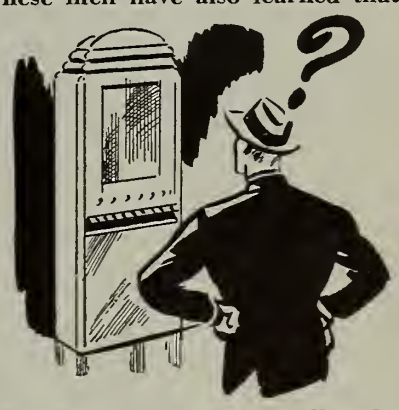
In keeping with the plan to expand your quarters should also come a plan to purchase whatever additional routes you believe you will be able to handle, especially in the post-war period. This is the time to purchase such routes, more for their locations, than for the equipment you will find in them.

A great many small coinmen feel that they want to get started with other equipment when the war is over. Others want to jump into different fields. Some want to get into other types of businesses.

In keeping with plans to correctly and carefully expand your present quarters, should also be the thought to enlarge your route. Look around. See what you want, and if you feel that it is worth what is being asked — buy it. Keep it going somehow. When your former men return you'll have a real business for them to operate for you once again.

## OPEN MIND ON NEW EQUIPMENT

Keep your mind open about new types of equipment. Don't believe that you only want to specialize in one sort of machine if you also like another. A great many coinmen have been amazed to learn that they are just as handy with an entirely different type of equipment as they have ever been with the machines they now feature. These men have also learned that it pays to keep an open mind on new equipment for they realize that new equipment of varied types may be the real answer to successful post-war operation.



Some men have already made statements that they are going to be very cautious about purchasing new equipment. This shouldn't phaze the man who isn't afraid of tomorrow. He should step in and buy the equipment that he has faith in, that he believes in, and there is no doubt that he will make that equipment pay him big dividends.

Lots of new and different types of coin operated products are going to enter the market in the post-war period. This is therefore not the time to close your mind to new equipment. Be that same sort of daring pioneer that made this industry what it is today by keeping an open mind on all types of new equipment.

## SURVEY TERRITORY

Never before has there been a better opportunity for you to get around and look over your territory. If you have intentions of jobbing and distributing this is a "must" job for you.

Get out on the road. Meet with everyone of the men in your area. Learn what is going thru their minds. Plan ahead in this way so that when the time arrives your territory will be as familiar to you as is the nose on your face.

This is something that every leading coinman should do today. Whether you intend to operate or to wholesale this is absolutely necessary for your future welfare. Get out and survey the territory you're in now so that you will know every hidden side street, every road and everybody in it.

## WHOLESALING

If you are wholesaling now and believe that this is what you want to do when the war is won, and the post-war era gets under way, then most certainly you have a great many important tasks in front of you.

Look over your quarters like a stranger would. Do they impress you? Do you believe that if you entered them for the first time you would have confidence in the men who might ask you to invest many thousands of dollars in merchandise in such quarters? Are they the sort of place where you can bring people in for conferences on purchases of large numbers of machines? Do they look like the quarters you need?

After you have satisfied yourself on this score, get your sales force started. Get the men you want and start training and developing them now — not when the rush is on and you haven't even time to think of training people. Get your service force set. Get those men you believe you will need, or take on the new men you want, and train them to do the job exactly the way that you want it to be done.

And all this is only the beginning of the job. You have to assure yourself of the distributorship you believe you want. Perhaps just waiting around for that to materialize will give you all the time you will need to do the job as outlined here.

## TEAMWORK

The greatest of all the jobs that you can do now to prepare for post-war tomorrow is to arrange for a complete unit of your industry, right in your own territory to work as a team. You and all the others in your area will need teamwork to help assure better welfare when the post-war era starts.

Arrange now to meet with all others in your territory, even if its just a pleasant, social get-together. Just sit down and talk with the boys. A lot of good suggestions and a lot of marvelous ideas have come out of such talks. Perhaps you'll learn that the other guy in your area isn't such a bad fellow after all.

### *(Public Relations)*

Remember teamwork is what you'll need in your territory for public relations work. And there will be a lot of this sort of work necessary in the post-war period.

### *(Taxation)*

For preventing excessive and inequitable taxation, you certainly will need the cooperation of all the others. That's teamwork — and teamwork will win everytime in such matters.

### *(Commissions)*

New commission understandings with locations require that everyone in the territory agree with you and work with you closely. Here again it takes teamwork to make this a possibility.

### *(Credit)*

Credit arrangements will eventually prove necessary. If you're a wholesaler you'll have to arrange to give lots of credit. If you're an operator, you'll need a little credit now and then. Teamwork — getting better acquainted with each other, can help this to become a reality.

### *(Locations)*

An understanding should be reached about respecting each other's locations. This has always been one of the biggest bones of contention in this industry. It should be brought to the fore now. It can be made possible with good teamwork. The men in your area will work with you for they, too, want to have their locations protected.

### *(Loans)*

This is the time to eliminate paying huge sums to some storekeeper for his spot. This is the time to come to an agreement about loans to locations.

### *(Territory)*

Opening territory is one of the really big problems in this business. The largest metropolitan centers in the nation are closed to many types of machines. By teamwork these can be opened again. This is therefore the time to make such teamwork arrangements so that better and more territory is available for all.

### *(Legal)*

Legal arrangements must also be made and should be made far in advance. There's no use in locking the barn doors after the horses have been stolen. Get set in advance with whatever legal talent you and your other fellow coinmen in your own territory feel they will need. Someone who will study and become closely acquainted with your industry, so that when legal problems arise he will have a complete background and many case histories of this industry with which to work. There will be a lot of good, young lawyers returning from the armed forces who will want just such a position. This is something that should be done, and can be done — with teamwork.

### *(Mechanics)*

You'll need mechanics. The reception given the idea of a school for coin machines mechanics, as proposed by The Cash Box many months ago, met with unanimous and national approval. Why not create such a little school of your own, right in your own territory, with the help of all the others in your area? This can be done. This can be more easily arranged than some sumptuous large building. Just a few nights effort each week by your best mechanics in schooling will turn some technically minded youngsters into the best mechanics you'll ever have. And believe me — you're going to need lots of good mechanical minds for the equipment that is coming out after this war is over.

### *(Allies)*

Another very, very important effort, that only teamwork can make effective, is cooperation with all the allied industries in your territory. The drug, candy, restaurant, etc., etc., men with whom you deal daily. This is one job that will mean a great deal to you, for it will become your "strong right arm" as The Cash Box editorial termed it some months ago. Don't overlook the allied industries and their cooperation. Only teamwork will make that possible.

### *(Unity)*

Teamwork — for tomorrow — is the most important essential you can arrange for now. It can mean the difference to you between failure and success in the post-war era. It is unity. And in unity is the strong, united front that this industry can present to all this nation for its continued future good and welfare. You need teamwork.

GEORGE PONSER, New York City, makes an extremely valuable suggestion to advertisers in The Cash Box. George writes "Don't you think it might be a good idea to have your advertisers list their full and complete exchanges and numbers of their telephones to facilitate phoning? In many cases, advertisers out of town, in listing their telephone numbers use only initials to designate the exchange. Should I, for example, desire to telephone them, it would be difficult to do so on the information given, particularly since very few have exchange numbers." Thanks, George, we fully agree with you - particularly since The Cash Box suggested from the first that advertisers use phone numbers in their ads.

# BASEBALL GAME NOT GAMBLING RULES NEW JERSEY HIGH COURT

TRENTON, N.J. Sept. 14 - The New Jersey Court of Errors and Appeals rules today that mechanical baseball games are not gambling devices. This ruling affirmed a Chancery Court order restraining John B. Keenan, director of Public Safety of NEWARK, N.J. from confiscating many of these games from Stirling Distributors, Inc. of Newark.

The Chancery Court had previously ruled that the dominant element that determines the result of a play is chance, not skill. Justice Joseph L. Bodine said in his opinion written for the Court of Errors and Appeals "The coin which starts the mechanism is eventually spent. There is no free play nor prizes, or a return of any money. The device is a game which those who want to play may do by purchasing the right. That the players may bet on the outcome is not determinative, since bets may be placed by those who would on almost any occurance."

This favorable decision by the New Jersey State highest court, which was originally started thru the courts some three or fours ago by Dick Steinberg (now in the armed services) of Stirling Distributors, Inc., Newark, N.J. now opens the way for operation of many games of this kind thruout the entire state.

# BOOGIE-WOOGIE VS. BACH

NEWARK, N.J. Sept. 15 - An item appeared in the New York City papers about a week ago that servicemen at Fort Hamilton and other points have juke boxes containing recordings of Bach, Beethovan, Brahms, and other "longhairs", and that they prefer this classical music over boogie-woogie, jazz and hill-billy.

An enterprising young Newark, N.J. reporter said "Oh yeah", and started out to find out for himself. His opening statement, definite and final is "It will be boogie-woogie - and not Bach - in Newark juke boxes for some time to come"!

The reporter sounded out operators and patrons, and all signs point to the increase of jazz. One operator reported "If the patrons like Bach they aren't showing it by asking us to put in any such recordings. Another operator claimed there was little or no demand for classical music or old time standard favorites. At the USO lounge in the Pennsylvanie Railroad station, where a home phono is available, popular records are kept playing continually, while the classical records gather plenty of dust.

The boogie-woogie vs. classical recordings for juke boxes is very interesting. Perhaps some of our readers have something to say about it.

# SERIOUS CIGARETTE SITUATION

MACK H. POSTEL, Chicago, Ill. who has been fighting for fair treatment for cigarette machine operators from tobacco jobbers for the past months, finally was driven to appeal to the National Association of Tobacco Dealers and the country's cigarette operators for support. Postel points out that the tobacco jobbers are refusing to give coinmen their just quota of cigarettes that are available. Altho the cigarette out has been about 30%, leaving the jobber with 70% for distribution, the operator gets nowhere near that quota, and many instances have been curtailed completely. Mack points out that the reason for this present treatment is that the operator gets sub-jobber discounts, and the small retailer pays top prices, so the tobacco jobber aiming for the additional profits, disregards the operator. Postel demands that the N.A.T.D. investigate this UN-American procedure of the jobbers and wants immediate relief.

In appealing to the cigarette machine operator, Postel suggests that they report any discriminations to their local OPA Regional Board, and insist on an investigation; contact the cigarette manufacturers either personally or by mail thru their operators' associations, or individually; and when the war is over to remember those jobbers who hurt them.

## OPTIMISM OPENS FALL SEASON

### Trade Looks To Busy Months Ahead, Await Reconversion Steps. Foresee Return of Service Men. Expect Entrance Of New Blood.

NEW YORK—Never before in the history of the coinbiz has as much optimism been apparent as there is for the opening of this Fall season of 1944. The average coinman is of the belief that before the Winter snows begin to fall the trade will find itself in the midst of one of its busiest and most hectic seasons.

Return of many service men, former members of the industry, is freely being forecast. Much new blood is expected to enter into the trade as reconversion gets under way for many industries and labor endures layoff periods.

In addition much action is expected to take place as coinmen now serving with the armed forces start to return to the trade and seek locations once again. Used games sales action is expected to zoom far above former figures. Many are of the belief that new blood will start into the field with used machines and will continue with new equipment when that becomes fact.

All are of the feeling that tho this Fall will see many new and surprising changes, new equipment will not be seen until sometime in the late Spring of '45. These men are convinced that the action which will come about during this Fall season of 1944 will be climaxed by the re-opening of production lines at leading factories.

War contracts now being handled by certain large coin factories will continue into the Summer of '45 — unless there is a general collapse of Japanese arms.

Regardless of whether new equipment will or will not be seen this year, the trade is extremely optimistic over the opportunities offered during this Fall season. The belief in general is that this is the time to get back into speedier action so that when the reconversion period sets in — the trade will be fully prepared to carry on to greater heights.

Already collections are beginning to show a slight upswing as the cooler weather grips the nation. Many report that the first signs of increased take came right after Labor Day and that this means a great Fall season.

Tho this is a presidential election year the trade does not believe this will affect action in any fashion whatsoever. The average coinman is keeping his eyes wide open where political battles are going on in his territory so that he will not be made the goat of any politician's ire.

Tho used equipment prices have been more or less jittery these past few months, it seems that these, too, are beginning to straighten out and the belief is that a new price basis will soon be noticeable to all the trade.

Coinmen are eager to get back into action with new equipment. All look forward to this Fall season optimistically. They believe that this Fall is sure to produce the first sign of a return to normal.

They feel that what work they shall be able to accomplish during this '44 Fall season will have its effect on the future months to come.

### EXTRA COPIES OF POST-WAR ITEM FREE

NEW YORK — A few hundred extra copies of the editorial appearing in this issue, "Prepare for Post-War" are on hand and will be mailed free of charge to coinmen.

Send name and address of coinman you believe should receive a free copy to The Cash Box, 381 Fourth Ave., New York 16, N. Y. or 203 No. Wabash Ave., Chicago 1, Ill.

### COLLECTION COVERAGE

NEW YORK — Beginning with this issue The Cash Box is mailing its collections report cards to a carefully chosen cross section of the trade. Every state in the union will be thoroly covered.

Territories of outstanding importance are given more careful and complete coverage by more cards being mailed to the men in such territories.

Those who believe that they, too, should report their collections to The Cash Box can avail themselves of this opportunity by writing The Cash Box today for cards to be enclosed with each week's issue they receive.

### ADS ON THIS PAGE

NEW YORK—As announced this past week, advertising will be accepted to appear on this page. Rate is $10 per column inch. measuring 2 inches wide by 1 inch high. Maximum size ad allowed is 20 column inches.

## Back in Biz After 25 Mos. in C. G.

BALTIMORE, MD.—After serving 25 months in the U. S. Coast Guard, Art Nyberg, known to many coinmen thruout the nation, is back in action once again at his Calvert Sales Company, 708 N. Howard Street, this city.

Art has been on the long distance phone ever since announcing his return to the trade, talking his return to the trade, talking with old friends who are happy to welcome him back.

He reports, "I believe that there's nothing in the world like coming back to the coin machines business again. The men in this trade are really swell. I've already heard from dozens of them who took time out to actually phone me long distance.

"We're starting right off with plenty of buying and selling. We also carry a most complete line of Bally parts of all kinds for all Bally equipment. We also have some plans for the future which we believe will interest our customers.

ART NYBERG

"All we want at this time is to again get back in full swing in the coin machines business and hope that our friends will call around and get acquainted all over again."

## GUESSERS GUESS END OF WAR

NEW YORK — The following continue in the contest originated by The Cash Box on March 14th, 1944 as to the exact time the war in Europe will end.

Since General Eisenhower is of the belief this war will end in '44 — the following guessers still have a chance to obtain the $100.00 offered by The Cash Box to the subscriber who has guessed correctly.

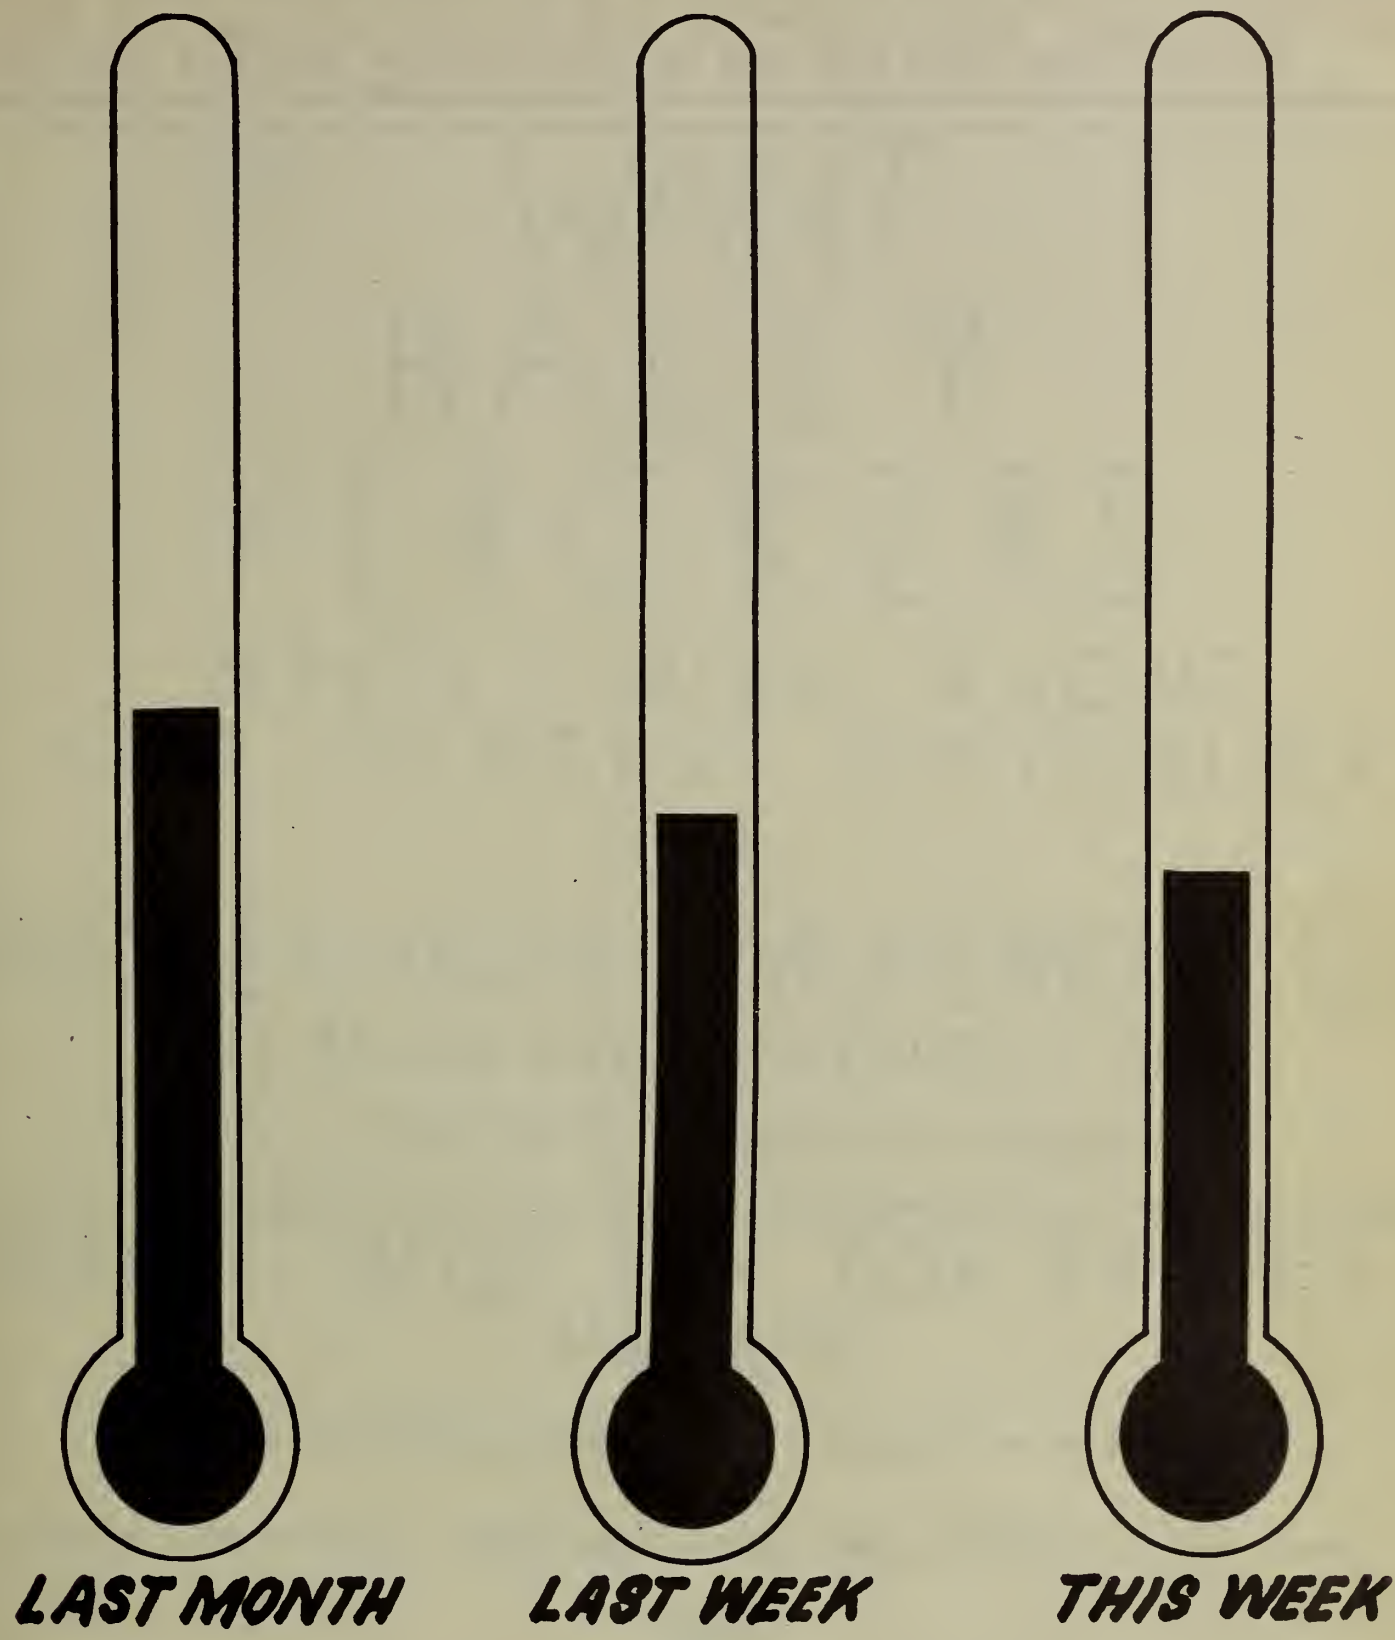
## PREPARING WEEK'S BIZ INDEX

Bill Gersh (left) and Joe Orleck (right) tabulating information from desk loaded with cards to obtain the nation's collection average. This average is recorded in "The Business Index of the Week", a copyrighted feature of The Cash Box which appears in each week's issue.

# BUSINESS INDEX OF THE WEEK

*A 1944 Copyrighted Feature of: The Cash Box, 381 Fourth Avenue, New York (16)*



Once again, on an average thruout the nation, collections were down this past week. But this time the drop was so low that there is now a surety the weeks to follow will bring back upswing to all collections. The average decline in collections this past week rated about 8%.

Holding down the average are the merchandising machines thruout the country - and these are not suffering from sales, rather from merchandise. Cigarette machine men continue to bemoan the fact that their equipment is being cleaned out in one or two days of each week and that for the balance of the week the machines remain on location empty. They have suggested rationing to their spots - giving only one pack to a customer. Some have already printed and pasted such signs on their equipment.

Amusement machines came back rather strongly this past week. Increases in collections were reported from many sections of the nation with the West Coast leading. Music continues on steadiest of all equipment. Increases in music collections are apparent almost everywhere with the South and Far West leading and the East remaining steady while the Midwest is very spotty on returns. Rural districts suffering mostly from lack of beer, which is closing taverns and losing play.

Interesting is the fact that collections have continued their downward trend since last month. Hot weather was first blamed, then lack of beer, and now trade feels that play is coming back with resort areas closed for the season and people back home again. Most reports received this week showed optimistic attitude for return to better collection figures.

# THE CONFIDENTIAL PRICE LISTS

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED EVERY OTHER WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

## FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past two weeks, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

## METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the two week period: Where only one price appears this should be considered lowest price.

## CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST TWO WEEKS
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS
7. MEANS NO PRICES QUOTED FOR PAST SIX WEEKS
8. MEANS NO PRICES QUOTED FOR PAST EIGHT WEEKS OR LONGER

## IMPORTANT

Machines underlined mean these were most active in trading these past two weeks.

# MR. MANUFACTURER

. . . continued progress during these trying and difficult days, we fully believe, is a most certain sign of the progressiveness, ingenuity and tenacity with which a firm is endowed. We attribute the progress we have made during this war period to these attributes. Our firm is today recognized as the leader in our state. This leadership, backed by the years of experince we have gained, we place at your disposal. WHEN YOU ARE READY TO APPOINT A DISTRIBUTOR FOR YOUR PRODUCTS IN THE STATE OF NEW JERSEY — ALL WE ASK IS THAT YOU GIVE US FAIR AND DUE CONSIDERATION. Allow us to show you why we are fully prepared to bring you a bigger volume business than you have ever before enjoyed from the State of New Jersey.

## JACK'S BEAN STALK

### FOR COIN MACHINE MANUFACTURERS AND DISTRIBUTORS

REMEMBER Jack and the bean stalk that grew to sky-scraper proportions? It enabled him to climb to new heights and gain new riches.

CMAC Financing provides a similar avenue for coin machine manufacturers and distributors, in the post-war era.

New machines will vie in hot competition for wide-open markets. Every manufacturer will need every dollar of his reserves for building and promoting his products. Every distributor will need a proven, profitable financing service.

Here's where CMAC Financing comes in. It will free millions of manufacturer's dollars from the low income job of carrying installment paper. Companies can turn their capital faster, multiply their volume, increase their profits accordingly.

So with Distributors who use CMAC Financing, they can buy and sell more machines, enjoy increased prestige with operators by offering this nationally known financing service.

Let the unprogressive do the plodding! Plan now for leadership with the help of an adequate, flexible CMAC Financing Plan.

In addition to financing manufacturer's and distributor's sales, CMAC also provides distributor financing for the purchase of warehouse stocks of new equipment — financing through manufacturers or distributors of a substantial amount of the cash required for purchase and sale of routes.

**and CANDYMAN**

One of the greatest achievements in the line of communications was developed by Samuel F. B. Morse when, in 1844 he perfected telegraphy, the life line of the world. DuGrenier, too, in its own field of Automatic Vending, has perfected, for Post War delivery, truly great Merchandising Vendors. Although we're busy helping to win a war right now and can only offer you service and repairs for your present equipment, we think you ought to know that we have the most dependable merchandisers waiting for the production "go ahead" in 194?.

FORMERLY KEYSTONE VENDING COMPANY

## *all the pigeons flew home...*

***Back in February 1940, at the grand opening of Keystone Vending Company, one of the most unique invitation ideas in history was used with great success. Many will recall receiving a Railway Express package containing a live homing pigeon. The recipients of these live pigeons were advised that if they desired to attend the grand opening of our firm, they need but release the pigeon. The most outstanding fact of this unusual invitation was that ALL THE PIGEONS FLEW HOME — proof, in itself, of what the trade then thought, and thinks today, of our firm — a firm that you, Mr. Manufacturer, can now arrange to have as YOUR distributor for the post-war era.***
